|------------------------|--|
| JOB TITLE: | COORDINATOR DATA RESEARCH |
| DIVISION | ACCOUNTABILITY, RESEARCH AND SYSTEMS IMPROVEMENT |
| SALARY SCHEDULE/GRADE: | II, GRADE 7 |
| WORK YEAR: | AS APPROVED BY THE BOARD |
| FLSA STATUS: | EXEMPT |
| JOB CLASS CODE: | 8019 |
| BARGAINING UNIT: | CLAS |

SCOPE OF RESPONSIBILITIES

Conducts data analysis and provides technical assistance to support District personnel, District research, District systems, program evaluations, and schools. Data analysis will primarily consist of statistical analysis of internal files. The analysis will be used as one of the components in the District decision-making process.

PERFORMANCE RESPONSIBILITIES & EVALUATION CRITERIA

- Conducts descriptive and inferential statistical analyses and data visualizations
- Works cooperatively with the designated coordinator, program directors and specialists in analyzing data to support District priorities and needs
- Researches past and current practices in areas assigned and integrates research in all areas of responsibility
- Prepares technical data reports in support of District research and evaluations
- Supports committees and task forces with data reports as assigned
- Performs studies for departments, offices and agencies as required
- Assists external researchers as required; additionally, this person will need to independently evaluate external research as needed
- Assures compliance with local, state and federal regulations and procedures related to area of assignment
- Assures compliance with Board Goals and Administrative Objectives related to area of assignment
- Completes all trainings and other compliance requirements as assigned by the designated deadline
- Performs other duties as assigned by supervisor

PHYSICAL DEMANDS

The work is primarily sedentary. The work requires the use of hands for simple grasping and fine manipulations. The work at times requires bending, squatting, reaching, with the ability to lift, carry, push or pull light weights.

MINIMUM QUALIFICATIONS

- Bachelor's Degree
- Experience with statistical analysis tools (i.e. R, SPSS, and/or Stata)
- Experience with descriptive and inferential statistical analysis of large data sets
- Experience with Microsoft Office
- Effective communication skills

DESIRABLE QUALIFICATIONS

Master's or Doctoral Degree in a research field (statistics, program evaluation, experimental psychology, data analytics, sociology)

| |
|---|
| Ability to complete advanced statistical data analysis (i.e. hierarchical linear modeling, structural equation modeling, item response theory, forecasting) |
| Experience with data visualization tools (i.e. Tableau, Power BI) |
| Experience in a diverse workplace |
