The Buy American provision (7 CFR Part 210.21(d)) is one of the procurement standards SFAs must comply with when purchasing commercial food products served in the school meals programs.

Buy American: Schools participating in the federal school meal programs are required to purchase domestic commodities and products for school meals to the maximum extent practicable. Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

Federal regulations require that all foods purchased for Child Nutrition Program be of domestic origin to the maximum extent practicable. While rare, two (2) exceptions may exist when: the product is not produced or manufactured in the US in sufficient reasonable and available quantities of a satisfactory quality, such as bananas and pineapple; and competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product. ALL products that are normally purchased by Distributor as non-domestic and proposed as part of this solicitation must be identified with the country of origin. Distributor shall outline their procedures to notify School when products are purchased as non-domestic. Any substitution of a non-domestic product for a domestic product (which was originally a part of the solicitation), must be approved, in writing 10 days prior of delivery date, by the Food Service Director, prior to the delivery of the product to the School. Any non-domestic product delivered to the School, without the prior written approval of the Food Service Director, will be rejected. Distributor must affirm their willingness to assert their best and reasonable efforts to ensure compliance with this federal rule.

JJ. DISCOUNTS, REBATES, ALLOWANCES AND INCENTIVES

The vendor shall fully disclose all discounts, rebates, allowances, and incentives received from its suppliers. The vendor must disclose and return to the Jefferson County Public School District, within a mutually agreed upon timeframe, the full amount of any discounts, rebates, or applicable credits that are received based on any purchases made on behalf of the District.

KK. COST REIMBURSABLE CONTRACTS

The following conditions apply to cost reimbursable contracts:

Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;

The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account);

The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;
The contractor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;
The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;
The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
The Contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.

Prohibited expenditures. No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit contractor receiving payments in excess of the contractor's actual net allowable costs.

VENDOR REQUIRED UNIQUE ENTITY IDENTIFIER (SAM)

Your bid is subject to rejection if this form is left blank.

This number is required to be considered for bid award with JCPS:

Information regarding SAM requirement:

By **April of 2022**, the federal government will stop using the DUNS number to uniquely identify entities. At that point, entities doing business with the federal government will use a Unique Entity Identifier (SAM) created in SAM.gov. They will no longer have to go to a third-party website to obtain their identifier. This transition allows the government to streamline the entity identification and validation process, making it easier and less burdensome for entities to do business with the federal government.

The Integrated Award Environment (IAE) manages several systems including SAM.gov, FPDS, eSRS, FSRS, CPARS and FAPIIS. Current SAM.gov registrants have already been assigned their Unique Entity Identifier (SAM) and can view it within SAM.gov. To learn more about this transition, please see the information below. Join and follow [our community on Interact](#) to be notified about the latest news and information about the upcoming Unique Entity Identifier (SAM) changes happening at IAE.

What Action Do I Need to Take?

If your entity is registered in SAM.gov today, your Unique Entity ID (SAM) has already been assigned and is viewable in SAM.gov. This includes inactive registrations. The Unique Entity ID is currently located below the DUNS Number on your entity registration record. Remember, you must be signed in to your SAM.gov account to view entity records. To learn how to view your Unique Entity ID (SAM) [go to this help article](#).

Refer to the [Guide to Getting a Unique Entity ID](#) if you want to get a Unique Entity ID (SAM) for your organization without having to complete a full entity registration. If you only conduct certain types of transactions, such as reporting as a sub-awardee, you may not need to complete an entity registration. Your entity may only need a Unique Entity ID (SAM).

If you operate a system that connects with IAE systems, documentation about using APIs to access SAM.gov is found at [open.GSA.gov](#). The latest version of FPDS ATOM feed includes the Unique Entity ID. FPDS released a crosswalk to populate the Unique Entity ID in contract actions in agency systems.

When will the Unique Entity Identifier (SAM) be viewable in IAE systems?

If your entity is registered in SAM.gov today, you already have your Unique Entity ID (SAM) and it is viewable in SAM.gov. This includes inactive registrations.

GSA is preparing all IAE systems (SAM.gov, FPDS, FAPIIS, etc.) to display, accept, and/or assign the new Unique Entity ID.
